

We offer a wide variety of **worktop designs** that have been carefully matched with the most appropriate profile to enhance the look of your kitchen, work or commercial area.

Worktops Post-formed

Post-formed Worktops are based on raw particleboard covered with a decorative HPL laminate and strengthened on the front with a special strip, making them ideal for counters in kitchens, offices and shops.

Worktops ABS Square Edge ^{NEW}

This is the modern version of a worktop and features a straight edge and 1.5 mm ABS edging that gives a sturdy, square look. The simple, cleaner lines make these worktops perfect for any contemporary or minimalist kitchen design.

Our **Post-formed Worktops** come with a special High Density Fibreboard strip, which strengthens the front edge of the worktop. This technical innovation enhances the quality of the profile and increases the impact resistance of the board. A special silicone strip is placed underneath the profiled edge along the entire worktop length, forming a drip barrier and keeping out water.
